“ Grandma, Ever since I found out that you passed away, my heart broke. I've never stopped thinking about you. I'll never forget our last trip together where I drove you down from Vermont to your house, that's a memory I'll never forget. I'll miss your cooking, Goulash for one. Your famous smile and the finger tap of yours on the table where you always tried to get my attention. You were willing to communicate with me through notes, I'll always will be thankful for those conversation through out the years on papers and so many failed lip reading :) But hey, at least we made it through. Thanks for all the memories Grandma and I know I will never forget you. Please keep an eye on all of us. Every time I see a tulip and orchid, I'll think of you. I love you- Jill

“ I will always remember my visits with her at her house. The time I heard the police were called for a "Well Being Check" when she went on a bus trip and forgot to tell her "telephone buddy." Our trip through the Panama canal and she left a suitcase on the dock in San Diego. Our trip to Disney World. We had a lot of fun. Rest in peace, Aunt Betty, Love Patty Royer
