“ Bobby Hinkle, every time I ran into you in the field or one of the hospitals, you always had a big smile on your face. Back in the 80's when you were on medic 3 and I was on medic2, we ran into each other quite often. And then there was medic5, where we both ran. If my memory serves me correctly, we were also in P2 class at St. Joe's. Wow, such a long time ago. We had such a great bunch of EMS friends. My thoughts and prayers go out to your family. They must be very.proud of you making such a difference. Rest in peace friend.

“ Some people go through life never knowing if they made a difference. He certainly never had that problem. Thank you Bob. We'll take it from here.

“ A truly dedicated servant who set the bar by which I for one worked hard to achieve similar commitment to my patients. A man who exemplified the three "C's" advocated by his Paramedic Program director: Competence, Capability and Compassion. His time here may be over, but the people who's lives are impacted by the way he lived will continue for generations to come! My thoughts and prayers are with family and friends. I for one, will NEVER forget Bob! I wish you peace.
