“ *I am so sorry to hear about Ed's passing. We moved next door this past summer and briefly got to know Ed. We immediately struck up a friendship and were looking forward to getting to know him better. Our prayers are with the family.*

“ Mr. Lacz helped 12 of us be able to petition and get a Biology 3 course approved (Coughlin HS), so that we could pursue our interest in biology for an unprecedented third year (9th, 11th, and 12th). He also invited me back to visit while I was in college and insisted that I teach something to the class when visiting. Thought of him as an older brother and a great teacher. His door was always open; shared a hot chocolate, tea, or coffee when visiting; played chess; talked about life in general; and I think he always encouraged me to be a teacher. Years later, I was a professor of biology at a college. He was the first teacher to make me consider that path. I hope that I honored his service.

“ Mr. Laczowski was my biology teacher at Elmer L. Meyers High School in Wilkes-Barre, PA. He was a friend, a mentor and an all around great guy! I have fond memories of him and the knowledge that he imparted on me and others will live on forever! The respect that he afforded me as a student was rare and changed the way I viewed and treated others going forward in my life! His gifts to me as a human being I could never repay! Rest in Peace my dear friend!
