“ *When we were little girls growing up, we shared so much of our childhood. You were the cousin I spent all my time with, the one who would always make me smile, make me feel safe, make me feel loved. You always held a special place in my heart, and always will.*

You were there through the good times, the bad times, and the fun times. Times I will never forget, and some I wish I could. I will miss you my friend.
