“ *I worked with Larry back in the late 80's and early 90's both at Wolf Motors and at his garage. Helped him restore the Batmobile. He was very knowledgeable about vehicles and taught me many things as he would always tell you like it was. Sad to hear of his passing. Prayers to all. RIP Larry.*

“ *I have such fond memories of being a young kid and playing with my cousins at their dad's junkyard down at the Buck. They would get an old car running (before cars had seat belts), and we would all pile in the car and strap ourselves fast to the seats with ropes and see how many small trees we could run over before we found one that would stop the car. I was the only one that kept yelling "slow down, slow down!". LOL!*

Larry helped me with a lot of car problems through the years. So grateful for his life and being part of the family.

*Love,
