“ *I was tommy weber wife bette. Very sorry to hear but happy to know elsie is with our lord family and friends now having a party. Elsie was a genuine christian lady . If there were more like her this world would be so much better off. First met Elsie and Les in Cherry Hill and liked them from the start. even though didn;t keep in touch we always knew where they were. If I remember Les worked on a corvair of mine. Then one day I saw them at big lots, and we we talked for a while and they never changed since I had seen them last. Les was as crazy as ever and Elsie was as sweet as ever. You could feel the love she had just beeming out of her. I feel gifted to have known her .*

“ A special lady. It's so hard to say goodbye to someone who you love so much and share so many memories with but you know it's just for a short time. Praying for all of you that God will bring comfort and peace at this tough time. She's in the presence of her Lord and Saviour!! We've very thankful that we don't mourn as those without any hope. You will see her again!!

We've been transferring videos over to dvd's and had a fun walk thru memory lane - many of them are with the Smitley girls when you guys lived on Park Avenue. Good memories..

Love,

Joel & Sue
